**ELECTRONICS MANUFACTURING COMPANY**

# BARTENDER ENTERPRISE UPGRADE

## BACKGROUND

An electronics manufacturer was running a legacy version of BarTender Enterprise that was lacking key features and components to allow printer operators on the production floor an efficient, controlled method for instigating printing. Their old methods allowed for too much end user control on label design changes effecting quality control and their print time data entry needed was time-consuming and ineffective.

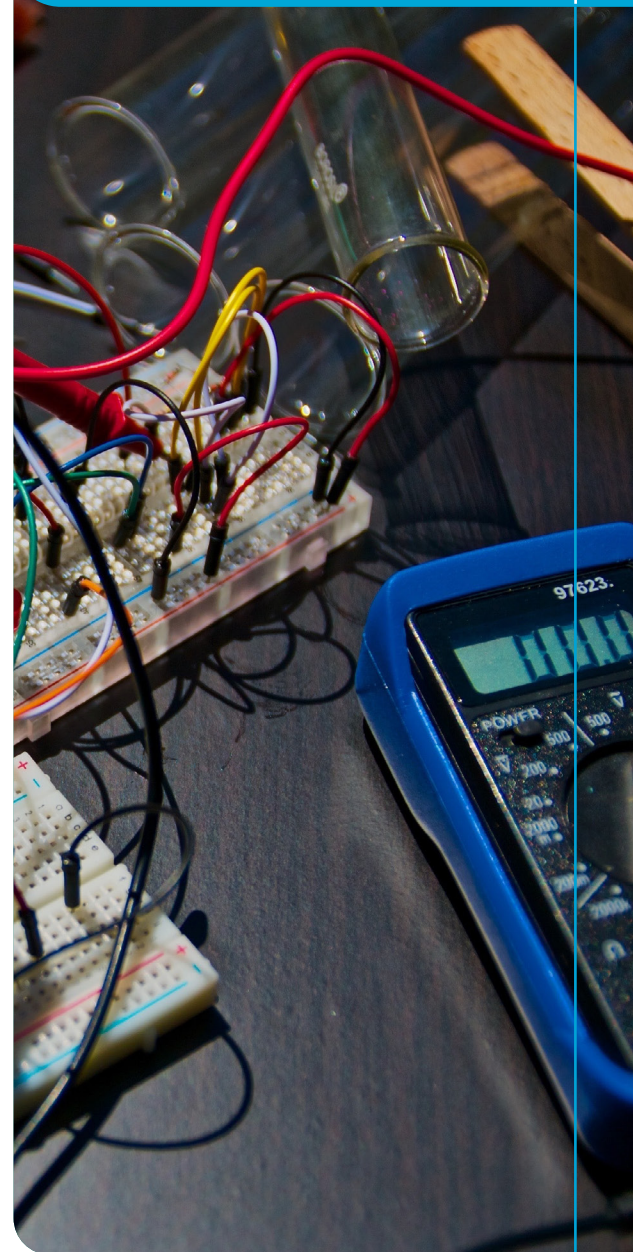

## PRAGMATYXS' SOLUTION

Each time a customer comes to us with a problem, we take the opportunity to review multiple solutions to ensure the one that is agreed upon, is the one that enables the customer to gain the most out of their investment. For this customer, BarTender's latest Enterprise release was the best option. It offered a revamped and retooled Print Portal component that provides a web based, intuitive, and secure method for the manufacturing floor operators to print finished goods labels with fewer steps while retaining quality assurance and security.

Pragmatyxs Inc's BarTender consultants installed and configured the latest Enterprise edition of BarTender with Print portal into a test and production environment and assisted with the migration of artifacts from the legacy environment.

## RESULTS

With the implementation of BarTender Enterprise and Print Portal, the company was able to deploy a seamless method for finished goods labeling. They reduced the amount of template rework and trouble tickets by removing any dependency at the label operator end and also vastly reduced the footprint of where BarTender software was installed.

## COMPANY OVERVIEW

Manufacturer of industrial  
test, measurement and  
diagnostic equipment

\$5.5M annual revenue

Established 1948

SOFTWARE TO CREATE  
AND AUTOMATE LABELS,  
BARCODES AND MORE

Pragmatyxs, Inc. provides fully integrated solutions for companies of any size. With 25+ years of experience and the ability to solve some of the manufacturing industry's more complex issues, we consistently meet or exceed the customer's quality, timeline and budget expectations.
